Aditya Patil

PROFESSIONAL SUMMARY

Software and Data Engineer with experience at Amazon building cloud-native systems and AI-powered data solutions using AWS, Python, and modern web technologies. Skilled in data pipelines, backend development, and scalable distributed systems and cloud-native architectures.

EDUCATION

Bangalore Institute of Technology

B.E - 8.4 - CGPA

Expected 2026

Bengaluru, Karnataka

SKILLS & COURSEWORK

Languages:	Python, Java, C, C++, JavaScript, SQL
Cloud & Platforms:	AWS (Lambda, S3, EC2, CDK), Amazon Bedrock
Systems & Concepts:	Operating Systems, DBMS, OOP, TCP/IP
AI & Data:	Generative AI, Prompt Optimization, LLM Applications
Backend & Web:	React, Node.js, REST APIs, Web Development, UI/UX (Figma)
Developer Tools:	Git, GitHub, Linux, VS Code, IntelliJ IDEA

WORK EXPERIENCE

Amazon - Internship (6 Months)

Data Engineer

Jul 2025 – Dec 2025

Bengaluru, Karnataka

- Improved Text2SQL accuracy for an Amazon Bedrock agent through prompt optimization and structured query generation.
- Built automated insight generation pipelines enabling faster data-driven decision making.
- Built an AWS CDK data pipeline that reduced marketplace data processing time from 4–6 hours to minutes, enabling faster competitive pricing decisions.
- Developed AWS-based cloud workflows using Lambda, S3, and Bedrock to automate data processing and AI-driven insights.

PROJECTS

TARS-D AI Voice Assistant | Python, Pyttsx3, SpeechRecognition, LangChain, Streamlit

- Built an AI voice assistant enabling hands-free interaction with real-time question answering and text summarization.
- Implemented multi-turn conversational context using LangChain and OpenAI APIs to improve response accuracy.
- Reduced manual effort for routine tasks through voice-driven automation.

CricSim Pro – Full-Stack Multiplayer Cricket Simulation Platform | React, Tailwind CSS, Socket.io, Node.js

- Developed a real-time multiplayer cricket simulation using WebSockets for low-latency communication and synchronized game state updates.
- Improved user experience with responsive UI design and optimized deployments across scalable cloud platforms.
- Supported scalable concurrent users through modular backend architecture using event-driven communication patterns.

E-Commerce Website for Rural People | React.js, TailwindCSS, Node.js, Firebase, JavaScript

- Developed a localized e-commerce platform enabling rural communities to access online marketplaces.
- Improved data reliability and user security with real-time synchronization and secure authentication.
- Improved community engagement by enabling local updates and region-specific content delivery.

CERTIFICATIONS

- Cisco Forecast League, FY2025
- Goldman Sachs – Software Engineering Job Simulation
- Tata Group – Data Visualisation: Empowering Business with Effective Insights Job Simulation

EXTRACURRICULAR

Rotaract Club of Bangalore Institute of Technology | Secretary, Photographer

Led community initiatives including blood donation and winter donation drives involving 2000+ participants.

Developers Society Club | Marketing Lead

Pioneered a UI/UX design competition, training students and securing three industry sponsors; competition findings led to the creation of a new mentorship program.
